

Medifio (Home Nursing Service)

Medifio is a mobile application to find home nursing services at people's doorstep like Uber and Ola. Nurses from nearby locations will provide services to their nearby patients/customers. **The app includes AI-based technology and Speech recognition technology for nurse safety.** Users can avail of the app by following these steps: select location, select service, check the nurse profile of the selected location and then book the service. After booking, the user's location will be shared with the nurse app. The verified nurse will provide service to the verified user. Medifio has a separate app for nurses, physiotherapy, attendant registration and another app for users. Nurses need to register in our app within a radius of 5-10km (Provision is there to add multi areas). In the nursing registration app, nurses must provide valid documents like Aadhar cards, registration certificates, pass certificates, Services they are eligible to provide, etc. After the verification process is done there are ready to be members of Medifio to provide the required services. Users can select the nursing service and can search for nursing service availability in their location.

Service provided by Medifio:

- 1) Nursing Care
- 2) Elderly Care
- 3) Physiotherapy at Home
- 4) Attendant Service
